

# Surgical Cut-up National Consultation

[Our projects](#) | [Our Industries](#) | [Our IRCs](#)

## National training for basic surgical cut-up project approved!

### Project timeline

#### The Initial research and analysis phase is underway to:

- Create two or three units of competency:
  - ✓ Triaging and allocations
  - ✓ Simple transfers in surgical cut-up
  - ✓ Non-complex surgical cut-up
- Create one skillset:
  - ✓ Basic surgical cut-up skills
- Update two qualifications to incorporate the new units of competency:
  - ✓ MSL40118 Certificate IV in Laboratory Techniques
  - ✓ MSL50118 Diploma in Laboratory Technology
